

Mr. Ashcroft

7th Grade World Geography

We will be using Canvas as our platform for online learning. Students have been using Canvas in class, so it is not new to them. To access Canvas, students can log into their school Office365 account and find the Canvas app or use the website I have listed on the left side of this page. I will post announcements in Canvas to give further directions and clarifications.

I will open assignments each week that will be due at the end of the week. (Assignments will remain open past the due date to allow for flexibility). Students work at their own pace as long as they get it done. As students work through modules in Canvas, they will be required to get a minimum score (usually a B) before the computer will allow them to move on. This means they can redo it until they master it. Some items don't require a minimum grade but do require a view or participation.

The online version of the textbook is available to all students. It doesn't work on a phone but is great on a computer. The textbook has a read aloud option for any student who wants to use it. Simply click the blue speaker button that looks like the picture at right. To access the online version of the textbook, go to www.myngconnect.com.

Click on "For Students"

There are many useful resources on the textbook site that will not be specifically assigned but are great additional resources. Also www.seterra.com is a fun website for practicing country locations on maps.

Feel free to email me at matt.ashcroft@psd201.org when questions arise. I will respond regularly between normal school hours.
